

Logo competition 50 years of computer science - enter now!

To celebrate the 50th anniversary of Aachen Computer Science, a festive week with many events will take place in September. Under which motto? Here you are asked! Until **31 March 2022**, proposals for logos and mottos can be submitted to pfannschmidt@embedded.rwth-aachen.de. A selection of current submissions can be seen above. The winner will be chosen by the organising committee.

You can win a VIP invitation to the ceremony - the highlight of the anniversary week on 09.09.2022 - and a surprise. The first ten entries will also receive an invitation to a barbecue on the sunny terrace of our chair.

We look forward to many creative submissions!
