

Experimental Vehicle for Automotive Software Design

According Diploma Theses

- [Conception and Implementation of an Experimental Vehicle for Automotive Software](#)
- [Design and Implementation of the Speed Measurement in a Vehicle Prototype applying the IEC 61508](#)
- [Design and Implementation of a Drive-by-Wire Architecture](#)
- [Design of Safety-Critical Embedded Systems using Design Patterns](#)
- [Design and Integration of an Autonomous Parking Assistant in an Experimental Vehicle for Automotive Software](#)

Further Pictures

- [Details on the car's configuration](#)
- [Pictures/videos](#)

Contact

- [Dr.-Ing. Falk Salewski](#)
- [Dr. rer. nat. Andreas Polzer](#)
