

Electrical Foundations of Computer Science

This lab course will deepen the theoretical knowledge gained in the lecture Introduction to Technical Computer Science through practical exercises and experiments. For further information see L²P or CAMPUS.

Registration

The registration for this lab course will start on 22.01.2008. It will be done through the CAMPUS system. The assignment to the groups will be announced in the end of march.

Introduction

There will be an obligatory introduction to this lab course on 08.04.2008 at 12pm in Fo 2. This introduction is adressed to all participants of the lab course.

Location

- Room 4U18 in the "1. Erweiterungsgebäude" (E1).
- Floor plan: [Computer Science Center](#)

Literature

The lecture is not geared to any specific book. However, we recommend the following literature for deepening content:

- R. Paul: Elektrotechnik und Elektronik für Informatiker. Bd. I, Teubner, Stuttgart 1994
- G. Bosse: Grundlagen der Elektrotechnik I. BI-Hochschultaschenbücher, Mannheim 1986
- Schiffmann Schmitz: Technische Informatik (Springer Lehrbuch)
 - Band I: Grundlagen der digitalen Elektronik (4. Aufl. 2001)
 - Band II: Grundlagen der Computertechnik
