

DCDS 2013: Best Paper Award

The publication *Boolean and Modular Abstractions for Programmable Logic Controllers*, written by Sebastian Biallas, Dimitri Bohlender and Stefan Kowalewski, won the [Best Paper Award](#) at the [4th IFAC Workshop on Dependable Control of Discrete Systems \(DCDS'13\)](#). The paper deals with two abstractions for PLC programs which are used by the verification-tool [Arcade.PLC](#). The tool is developed by the Chair of Computer Science 11.
